Justin Choi, MLIS, JD

Librarian & Distance Education Coordinator

Mr. Justin Choi obtained his BA in History at the University of Chicago, Illinois, Juris Doctor (JD) from Regent University School of Law, Virginia Beach and his Masters in Library and Information Science from San Jose State University, San Jose, California. He has extensive experience in the software industry, public library and curating translation materials.

In February 2021, Mr. Choi started as the librarian and distance education coordinator at Angeles College.

As the librarian and distance education coordinator, Mr. Choi works with students and faculty in using Canvas LMS, the Library and Information Resource Network (LIRN), and the physical library. He is here to guide students in their research and writing.

One of cohort 45!!! I passed my NCLEX-PN during this COVID19 on the first try. If you ever enroll for Vocational Nursing program. I urge you to study hard, pay attention to your instructors and attend all assigned clinical externships. After all you paid a lot of money to get into this program and ultimately its only YOU who can make it happen to be a NURSE. All of these faculties are there to help you with whatever you needed. The DON, ADON, Program directors and administration go beyond their duties to help you to be a successful nurse. These people are not only good with their knowledges, they use their creds to help people like you and me to achieve our dream, to be a NURSE!! I know it can be daunting at first, but with time if you learn to use your critical thinking, good judgement and nursing concepts, you got it.

This program has been using ATI to help their students pass NCLEX on first attempt. If you research about the passing rate, students from Angeles College have a great 100% passing rate on first attempt!!!!

- Vivian M.

I want to thank Angeles College and all my teachers for their support!!! I moved to the USA 3 years ago, English is my second language, and I had no knowledge about nursing. I passed NCLEX on first try with minimum 75 questions and couple days ago received license. Also, my school is helping me with a job right now.

I'm glad I made the choice to enroll in this college. From the beginning everyone was very helpful. The financial aid office and administrators made the enrollment very easy to understand and helped me with documents and financial aid. The instructors are great and they make it very easy and fun to learn.

- Aigera A.

I started this program with little to no knowledge/experience in the medical field and I'm glad I chose Angeles College to start my nursing foundation. The staff was excellent and work with you in every aspect of the way and my peers were just as great and make the learning experience as smooth as possible. The addition of implementing the ATI testing platform drastically increased my chances of passing the NCLEX first try! Easy to adjust to the fast-paced learning environment and quickly introduces you to the world of nursing, so be ready!
